

## Cable detective

Test instrument for mains copper cables, for discovering connection faults in customised data cables and complete installations. All coaxial connections with BNC/TNC connectors, USB cables and all UTP/STP cabling with 6 or 8 pin modular plugs can be checked in seconds for wire breaks, pin assignment and short circuits, both for individual conductors and for shielding.

With visual (LED) and acoustic error signals. The "Cable Detective" reduces the tedious, fraught and expensive search for cable faults to a minimum. Even longer cables laid up to 200 m can be tested by a single person.

In a practical belt bag, for 9 Volt E-block battery, comprehensive operating instructions.

## Voltage tester Drei-Ve

The innovative triangular handle means this new CIMCO voltage tester is simply easier to hold in the hand.

The Drei-Ve voltage tester has an ergonomically shaped triangular handle in transparent, impact-resistant plastic.

The curved vertical contour allows the best possible contact pressure and the appropriately shaped holding clip on the handle will secure it to a shirt or overall pocket. The voltage tester is manufactured to meet the latest DIN standards and VDE/GS tested.
