Dear Valued Customer,

**Coronavirus – Product Availability Update**

Given the recent outbreak of the novel Coronavirus 2019-nCoV, we wanted to inform you that we are conducting an on-going, company-wide analysis of our supply chain and **we have not identified any issues to date from LAPP's 17 decentralised manufacturing plants and distribution warehouses.**

LAPP Australia would like to reassure you that we are taking a variety of measures to ensure the continuation of supply to our customers. In addition, we do not currently expect any significant or negative impact on our ability to supply Lapp's range of industrial cables, cable glands and connectivity solutions.

Following is a list of actions we are taking to minimise any disruptions:

- Product availability is prioritised
- Product sales and stock on hand is reviewed daily
- Any potential or current supply issues are identified and addressed; and
- Open dialogue is maintained between our teams, trade partners and customers to ensure continuous supply

If you have any questions, please contact your Lapp account manager or our customer service team to ensure the best possible outcome in such a challenging situation.

On a personal note, I would like to thank our customers, trade partners and staff for their continued support and dedication.

Kind Regards,

A handwritten signature in blue ink, appearing to read "Simon Pullinger", with a long horizontal stroke extending to the right.

Simon Pullinger
